J. E. Redfern, Hurt in
January Mishap, Dies
in St. Louis Hospital

One person died Thursday of injuries received in an accident last month, and eight others were injured in the Quad-City area in mishaps during the week-end since last Thursday. A total of 23 traffic accidents was reported.

Dead was John Eugene Redfern, 55, of 2309 Waterman avenue, who was struck by a truck Jan. 24 while at work wrecking a house. He died in Jewish Hospital, St. Louis, where he had been readmitted Wednesday for further treatment. An inquest is pending in St. Louis.

Employed by the S. M. Wilson & Co. for the past 18 years, Mr. Redfern was pulling on a cable while demolishing a home at 20th and Quincy streets when he stepped backward off the curb into the street. The truck driver apparently was unaware of the accident and continued on his way. No one saw the name on the truck. Granite City police said Friday that neither the driver or the vehicle had been located.

Mr. Redfern was born in Macoupin county and had resided in Granite City for 24 years. Previously, he had lived in Scottville, Ill., where he was a member of Masonic Lodge 438, A.F.A.M., and the Scottville Christian Church. He also was a member of Carpenters' Local 633.

Surviving are his wife, Mrs. Helen Redfern; one daughter, Miss Karen S. Redfern, and her four brothers, Gilbert Redfern, Carlvin, Ill., Myron Redfern, Raymond, Ill., Harold Redfern, Palmyra, Ill., and Wendell Redfern, Mansfield, La.; and one sister, Miss Bernice Redfern of Minneapolis, Minn.

Funeral services were held Saturday. Arrangements are given in today's obituary column.

Thurman was treated at St. Elizabeth Hospital for a swollen left hand and abrasions to the right knee and was released. The woman complained of pain.

Three persons were injured when the brakes on an auto driven by Mark F. Krizan, 58, of 2225 Woodlawn avenue, failed and caused a collision with another driven by Walter S. Macios, 55, of 1929 Harris street, Madison, at 10:15 a.m. Thursday at Namooki road and Washington avenue.

Macios was admitted to St. Elizabeth Hospital with rib injuries. Mrs. Veronica Macios, 51, complained of pains. There was no report of hospital treatment for either Mr. Macios or for Krizan.

Revised Liquor Law for County Again on Agenda

A revised county liquor control ordinance is to be considered by the Madison county board of supervisors at its meeting at 9:30 a.m. Wednesday in the county courthouse at Edwardsville.

One proposed change would require taverns in unincorporated areas to close at 1 a.m. Under current provisions, they need only to stop the sale of liquor at 1 a.m. but can remain open after that hour.

Other changes proposed in the past, concerning the control of patrons, were hotly disputed by the tavern operators.

A resolution designating the holidays on which the courthouse will be closed during 1966 will be taken up.

Semi-annual reports of the circuit clerk, probate clerk, county clerk, recorder of deeds and the sheriff will be submitted.

Also on the agenda are requests to advertise for bids for three patrol cars for the sheriff and for three sets of uniforms for night riders. Action is to be taken on bids for a county highway department truck, a resolution in which the recommendation involved rezoning to R-4 classification for a series of duplex developments in a two-family zone, and to R-8 for construction of multiple unit apartment dwellings.

Plans submitted to the planning commission pointed out that the duplex structures will be built around the exterior of the tract, facing all other residential properties, with the apartment units built in the center of the tract.

The development is to be known as Briarcliff Manor and will be built by the Briarcliff Development Co., headed by Charles Lybarger of the Lybarger Material Co.

Amount Not Disclosed
William Hoelscher, chairman of the zoning and planning commission, pointed out that the amount involved in the proposed construction was not disclosed but that the commission was informed it would run well over a million dollars. Recommendation to the council for approval of the rezoning was approved unanimously by commission members.

The commission also approved a petition by James Green, Granite City contractor, for rezoning of a tract of land in the 2500 block of Washington avenue for construction of two eight-family unit apartment buildings. The property was zoned from R-3 to R-5 (multiple family) classification.

(At the request of Assistant Fire

Chief Curtis Denley who met with the commission, a recommendation for amendment of the zoning and planning ordinance was approved, calling for provision for two egress fire lanes in all multiple dwelling developments constructed hereafter.

Hoelscher said the recommendation changes will require a means for movement of fire equipment through two major lanes in such developments, one of which may be of emergency nature. The action, if upheld by the city council, would amend the fire department code of the planning ordinance which is based on American Fire Insurance Co. standards.

The commission heard a report by Theodore Miksell, director of the Southwestern Illinois Metropolitan Area Planning Commission, concerning updating of the city's master plan and zoning code. Miksell informed the commission that the basic geographic boundary maps have been completed and are now being checked by city officials and engineers.

To Name Committees
After the maps are approved, a number of citizens' committees, each headed by a member of the planning commission, will be formed to help draft a complete zoning ordinance and master plan, including new zoning areas, traffic routes, construction requirements and all other factors necessary to a complete city master plan. Such additional factors would involve annexation, building permit requirements and inspections as well as other procedures.

Miksell told the commission that by the time the work on the new master plan is completed it is hoped that Granite City will have a full time planning director.

Retired Motorman, J. Lee Myers, 76, Dies Early Today

J. Lee Myers, 76, of 1408 Kirkwood, died early today at St. Elizabeth Hospital, St. Louis, where he had been a patient for 20 days.

A 50-year resident of Granite City, Mr. Myers was born in Grouton, Ill. He was a member of the Third Baptist Church and the Brotherhood of Locomotive Firemen and Engineers. He had been employed by Illinois Terminal Railroad as a bus driver after street car service was discontinued from St. Louis to the Quad-Cities, and retired in 1952.

His wife, Margaret, died in 1943. His survivors include three sons, Robert and J. Lee Myers Jr., both of Troy, Ill., and Mark Pickett, Granite City; three daughters, Ruth Boyer, Granite City, Mrs. Harry (Thelma) Boughner, Lancaster, Pa., and Mrs. David (Juanita) Doherty, Shreveport, La.; three brothers, Harrison Myers, Alton, George Myers, Jerseyville and Clyde Myers, Portland, Ore.; ten grandchildren and nine great-grandchildren.

**Believe Construction
Will Begin 30 Days
After Bid Opening**

The much-discussed and long-delayed Nameoki road improvement project, finally placed on a state bid-call list Friday, may reach the construction stage as early as April, state and city officials said today.

Bid advertisements for the project were distributed by the Illinois State Highway Department on Friday with approval of the U.S. Bureau of Public Roads which previously had delayed a bid call for the job because of encroachments on the right-of-way. Bids are called for opening on March 4.

The project was reached at a meeting between university and city officials Saturday at Wood River.

A complaint for an injunction against interference with the heating systems in the classroom building and the library had been filed Thursday against the contractor and the university by the city.

The contractor to effectively deliver the operation to SIU-SW.

A hearing on the complaint was set for Friday morning in circuit court but the suit was withdrawn today.

Classes have been held in the university building since January but work has been continuing on some phases of the operation.

Accord Reached On Operations of SIU-SW Heat Plant

An apparent settlement has been reached regarding operation of the heating systems at the Southern Illinois University-Southwestern campus, John S. Rendleman, SIU-SW vice president for business affairs, announced today.

The dispute arose last week when university officials claimed that members of the Pipefitters and Plumbers Union Local 553 had chained a shut the heating system, preventing the university from taking over control of the operation in accordance with an agreement with the Usher Brothers Heating Co. of Chicago, heating contractors Saturday.

The agreement was reached at a meeting between university and city officials Saturday at Wood River.

Arrest Suspects In Burglaries at Store, Stations

**Home Break-Ins Among
31 Weekend Reports;
\$1500 in Coins Taken**

Thirty-one Quad-City area burglaries and theft cases were reported during the weekend, and authorities were able to make arrests in two service station break-ins and a liquor store theft.

Burglary Charge Filed
Paul Madewell, 18, of 1832 State street, was charged with burglary and resisting an officer at 2:30 a.m. Friday after police discovered a break-in at the Service station, 2701 Ponton road, at 2:30 a.m.

Madewell was picked up at 20th street and Madison avenue. Entry to the station was gained by breaking an overhead glass window. A cigarette machine was pried open and an unknown amount of money and cigarettes were taken. Also stolen was change from the cash register and a tire.

Captured in Station
Police on patrol noticed a broken glass pane in an overhead door on the south side of Griff and Ronnie's service station, 1601 Madison street, and were stopping to investigate about 3 a.m. Friday, scored with an arrest.

The officers went inside the building after other patrol cars were summoned to surround the place, and in the office they found a man trying to hide under a desk. He offered no resistance.

Taken into custody was Melvin Travis, 33, of 3145 Willow avenue. He was charged with burglary. Travis, police said, declined to make any statement.

Earlier Sunday at 1:30 a.m., police discovered a break-in at John Cell's station, 18th and Madison street, where a shot of metal oil had been removed from the west side of the building. A machine had been looted of gasoline.

At 4:25 a.m. Sunday, police found a broken glass in a door on the south side of Bud Johnson's service station, 1700 Cleveland blvd., where several hundred dollars had been taken in a burglary a week ago. However, entry was not gained this time.

Petty Theft Charged
A charge of petty theft was placed Friday against Lloyd Henry, 25, of 108 State street, by police who said he had been caught as he crawled behind the counter at the Venice Liquor store, 136 Broadway. Police were called to the store where the arrest was made.

A coin collection valued at \$100 to \$200, belonging to Liffen Joyce, 1710 Garfield avenue, was stolen from his home between 4 and 9:30 p.m. Friday, it was reported by Joyce.

An antique gun on which no tag was placed.

Entrance was gained by forcing open the rear kitchen door.

The coin collection was in an overnight traveling case and weighed about 32 pounds, police were told.

200 Students to Take NMSQT at GCHS on Mar. 1

Granite City high school will administer the National Merit Scholarship Qualifying Test (NMSQT) to about 200 students at 9 a.m. Tuesday, March 1, L. C. McCauley, principal, announced today.

The NMSQT, a two and one-half hour test of educational development, is the first step in the 12th annual competition for four-year Merit Scholarships. Students who wish to be considered for Merit Scholarships to be awarded in 1967 must take the NMSQT on this date.

All students' scores will be reported to their schools before May 15, together with interpretive and guidance materials for schools and students. A but 14,000 semifinalists, the highest scorers in each state, will be announced publicly on Sept. 22, 1966.

The names of semifinalists will be sent to colleges and universities offering financial aid to undergraduates.

In October approximately 38,000 students score just below the level required of semifinalists will receive letters of commendation for their high performance, although they will not be eligible to compete for Merit Scholarships.

Each semifinalist will be required to substantiate his NMSQT performance on a second examination and submit certain biographical information in order to become a finalist in the competition. Only finalists are eligible to be considered for the Merit Scholarships financed by NMSC and sponsors. Every finalist will be awarded a certificate of merit for his outstanding performance in the 1966-67 merit program.

Finalists who win Merit Scholarships will be selected on the basis of school records and extracurricular activities, leadership ability, and accomplishments outside the classroom. The awards range from \$100 to \$1500 per year according to the student's need. About three-fourths of the 200 Merit Scholarships awarded in 1967 were sponsored by corporations, foundations, colleges, associations, unions, trusts or individuals.

'No Automatic Refunds' Of Taxes, IRS Says

"You will not receive an automatic refund of tax withheld from your wages unless you file a tax return," Jay G. Philpott, district director of Internal Revenue for central and southern Illinois said today.

"Many taxpayers believe that when the tax withheld is more than the tax liability, the overpayment automatically will be refunded to them by the government."

"Although no tax return is required when the gross income received during the year is less than \$600," Philpott said, "a return must be filed to obtain a refund of the tax withheld."

"This advice is particularly applicable to students and other taxpayers who worked only a part of the year."

Midnight Tuesday License Deadline

Midnight tomorrow is the deadline for mounting 1968 state license plates on all motor vehicles in Illinois. Any motorist operating a vehicle with 1965 plates will be subject to a fine, according to Paul Powell, secretary of state.

Optimists Hear History Of Boy Scouting by Lewis

The history of Boy Scouting and its unlimited advantages to youth were spotlighted by Eagle Scout Stephen Lewis, 14, a member of Boy Scout Troop 8 of the First United Presbyterian Church, at a Granite City Optimist Club luncheon held Thursday in the YMCA. The special program marked the 50th anniversary of the Boy Scouts of America.

The speaker, a son of Judge and Mrs. Austin Lewis, 1824 Fourth street, Madison, was introduced by Edward Applegate, Unwah District chairman. Thirty attended the luncheon and business meeting, conducted by Edward L. Stone, Optimist president.

"I suppose every boy wants to help his country in one way or another. There is a way he can do so easily, and that is by becoming a Boy Scout," the words of Lord Baden-Powell, founder of the Boy Scout movement, were repeated by the youth to emphasize the importance of scouting in a boy's life and to set the theme for his talk. Lewis, a Madison high school freshman, started his scouting experience in 1959 as a member of Cub Pack 90 of the Madison Methodist Church. He has served as a den chief and patrol leader and since obtaining Eagle Scout rank last July, has acted as instructor for tenderfoot, second and first class ranks. He holds 26 merit badges.

Last week the youth represented more than 4000 scouts in the Cahokia Mound Council, at

"Citizenship Day" activities in Springfield. In relating his experiences, Lewis stressed the character-building and citizenship responsibility aspects taught through scouting. His younger brother, Austin Lewis Jr., 12, also is a member of Troop 8.

Madison-Cahokia Contest Moved To Wednesday

The Cahokia-Madison basketball game originally scheduled for Tuesday night has been switched to Wednesday night, it was announced today by Earl McClanahan, Trojan cage mentor.

The game was moved to Wednesday due to a conflict in schedules of the officials set to referee the game. It was too late to get other officials, so the date of the contest was changed, McClanahan said.

The contest, set for 8:15 p.m., will decide the Midwestern Conference championship. A Madison win would throw the league crown into a tie between Cahokia and the Trojans. If the Comanches win, they would become league champions.

A junior varsity encounter is slated for 6:30 p.m. at the Madison gymnasium.

'Schmitt's Squad' Takes Ninth District Mat Meet

Granite City's wrestling team qualified four champions and six runners-up for the sectional meet on Feb. 19 and set several records at the Wood River district wrestling meet on Saturday.

The Warriors scored 121 points to win the district meet for the ninth consecutive time in the nine-year history of the district meet.

Edwardsville's Tigers were second for the fifth consecutive time with 75 points, while Wood River totaled 60, Bethalto 49, Vandalia 27, Roxana 25, Highland 10 and Southwestern nine.

The smallest and brightest shining star on the Warrior team, 85-pound Bill Fuchs, scored his 21st victory of the year against no defeats and recorded pins No. 25, 26 and 27 of the year as he captured the district championship. Last year, he was state runner-up as a sophomore in the 95-pound class.

The defending state champion Warriors also listed the following as weight class champions: Joe Martinez (103), Mike Andria (133) and Jim Valicoff (145).

Runners-up for Granite City were Mike Reynolds (112), Lester Robertson (120), Brian Lanew (127), Randy Roustio (154), Ray Hadam (165) and Dewey Bell (heavyweight).

Spirited Performances
Roustio gave three spirited performances for the Warriors as he defeated Vandalia's Bill Blankenship 7-0 and Highland's Dick Berder 7-1 before losing to Wood River's highly-touted Bob Pitchford, 6-4.

Roustio was a last-minute replacement for Granite City's Bruce Illies, who suffered a broken finger in a workout prior to the meet. Mike Reynolds pinned two opponents before losing to Edwardsville's Curt Alexander 4-1 in the championship bout. Reynolds has won one of the three years he has met Alexander in district finals of the 112-pound class.

Jim Valicoff defended his 145-pound district title with a pin of Roxana's previously undefeated Larry Milazzo in 4:38. Milazzo had a 16-0 record entering the meet.

Jerry Lapinski (138) was the third-place winner for the Warriors. The Braves drew a first-round bye and met Edwardsville, the tournament winner in a semifinal contest. The Tigers were two points from Coolidge and the Braves lost 6-57 Thursday. Simpson and VanBuskirk were high scorers for Coolidge with 16 and 14 points.

The Braves will meet Roxana in the first round of the 22nd annual Collinsville junior high school tournament at Collinsville North at 8:15 p.m. Tuesday.

If they win, the Braves will meet the winner of the Bethalto-North game Thursday.

GC Warriors Down Oilers; Ripka Stars

Larry Ripka and Jim Hentzel carried the Granite City Warriors to a 75-68 home court Southwest Conference victory over the Wood River Oilers Saturday night.

The pair of Warriors netted 32 and 20 points, respectively, and were topped only by the 31 points by Wood River's Guy Harrison.

The Oilers chalked up a 7-0 lead but Hentzel hit on a jump shot with four minutes left in the first period for Granite City's first score in the game.

After a 24-18 first-period lead as Harrison used his 67th frame to score 16 points in the period, aided by several perfect passes under the basket.

The Warriors countered with the Ripka-Hentzel attack, and the duo scored 20 points in the second quarter to help put Granite City ahead 42-39 at intermission.

Granite City cut off the Harrison threat under the basket by meeting the Oilers guards at the top, stopping the passes to the big players.

The Warriors had trouble keeping pace with the Oilers several times, but coach Ralph Sackel called time out and set up an offense with Ripka as the primary ball-handler.

The red-haired senior took command and the Warriors stayed intact when the going was rough. Hentzel dumped in long jump shots when all else failed for Granite City.

Granite City outscored Wood River 32-28 in the second half and outrebanded the Oilers 16-13 in that half.

Wood River held a 3-25 edge in the rebounding department over the Warriors. Both teams shot 355 in the first half and dropped slightly during the last two quarters.

The Warriors set a new season low in turnovers with eight, while Wood River gave up the ball on offense 18 times before taking a shot.

The win puts Granite City ahead of the Edwardsville Tigers with a 5-6 conference mark; the Tigers are 4-7, Wood River is 3-7 in conference play.

Khoury Leagues Gone, But in Name Only

By Mike Gremard
Press-Record Sports Editor

The Khoury baseball association will mark its 30th anniversary at a special dinner Feb. 29 in St. Louis. It operated in the Quad-Cities until seven years ago.

Until 1959, the Khoury Leagues thrived here; with many youngsters playing ball. Since then, the program has been turned over to the park district; the results are the same in quality but larger in quantity.

Date Back to 1931
The Khoury Leagues first got started in Granite City when a dentist, Dr. Leo Coleman, and a few associates decided to step in and help the then existing police leagues in 1931.

According to Dr. Coleman, the new Khoury leagues provided an opportunity for more supervised and organized recreation for the youngsters.

In the first year of actual competition, Dr. Coleman and his associates decided to retain the name of Police Leagues and adopt all of the rules, practices and general operating procedures of the original Khoury Leagues, established by George Khoury back in 1938.

That first year saw 22 teams in full uniform compete for honors in the newly re-organized leagues.

By the time the Khoury Leagues were turned over to the park board, the program had grown to more than 60 teams with over 100 boys players organized baseball during the summer months.

Graduated Diamonds
George Khoury, regarded by many as a genius, wisely set up a system of graduated diamonds for eight age groups.

He created five sets of graduated diamond specifications. For example, a team composed of boys seven to nine years old played with a pitching distance of 35 feet, whereas a team of youngsters over 15, but under 17, used a pitching distance of 60 feet, six inches.

Khoury's theory was to gradually strengthen the playing abilities of a youngster until he was able to compete on a regulation playing field. But, Khoury went one step farther in his theories.

He set up a complicated group of rules which said that if a boy did not play for three months, he could join another club at his will. He did not allow coaches to bribe or trade players but he specified that if a coach dismissed a boy, the youngster could join another team.

While the Khoury system was in existence in Granite City, its founding fathers built 15 baseball diamonds and one playground, with the help of local citizens.

THE MADISON COUNTY SPORTSMAN

By DON HASTINGS
County Conservation Officer

With the close of a very poor rabbit season we now have a month or two left in outdoor sports.

During this time we catch up on back work and do our annual checking of the various licenses, the most prominent of which is the retail fish sale license. Any store or person who sells fish native to Illinois (this covers all except ocean fish) must purchase a retail fish license regardless of whether he sells them fresh or frozen or whether they came from Illinois or some other state.

For the next two months, I will have various officers helping in the county.

If you cannot reach me, the best thing is to call the Madison County Jail at Edwardsville, 686-0415; they will contact whatever officer is working. This should only be done if you want to report a violation.

If you just want some information regarding some law, either phone Officer Maynard Kuhn at Peabodias, 686-4680, or George Smith at East St. Louis, UPTON 5-0994.

Recent fines paid at the magistrate court in Edwardsville included \$75 fine and \$20 costs for night rabbit hunting from an auto and \$50 fine and \$5 costs for illegal consuming. The stronger fines imposed during the past year on serious violations have improved the situation greatly. With the rabbits so scarce,

'Don Freeman Day' Set for March 5

Honors During
Illinois-Iowa
Big Ten Game

The Illinois-Iowa basketball game at Champaign on March 5 will draw more than the usual amount of interest from Quad-City residents, as it will be "Don Freeman Day."

The Saturday afternoon has been set aside by a group of Madison residents to honor the former Madison high basketball star as he captains the Fighting Illini in a Big 10 contest.

Announcement of the "day" came from Vasil Graville, general chairman, who said that it will be filled with activities at Champaign.

Graville said plans call for sale of 100 special reserved seat tickets in the Quad-Cities for the game. Freeman will be presented with a plaque citing his contributions to Madison and his athletic achievements.

Gov. Otto Kerner is expected to sign a proclamation calling for the day to be set aside by all Illinois residents as "Don Freeman Day."

Plans include a chartered bus trip for fans to Champaign, a halftime ceremony presenting Freeman with the plaque, and a special after-the-game get-together between Illinois residents and Freeman.

Currently, Freeman is in contention to break all Illinois basketball scoring records. The former All-State center is third in the Big 10 with a 27.9 scoring average and is also averaging 12 rebounds a contest.

Nears Career Total
Freeman needs only 116 points to break Dave Thorne's career scoring mark of 1360, set in the seasons of 1961-62, 63, and 64.

district meets in the Granite City sectionals this Saturday.

In every one of the nine years the Warriors have won the district, they have scored more than 100 points in the meet. Their record high was 142 points in 1960, and their low was 102 in the 1959 edition of the district meet.

Last year, Granite City qualified eight champions and 170 runners-up.

"We got more than we expected and had good results from the kids, even from those who lost," said head coach Matt Cook Bill "Red" Schmitt.

The Warriors' Southeastern Conference rival, East St. Louis, placed nine champions and two runners-up in the Carbondale district Saturday while winning that meet.

Pairings for the sectional will be made Saturday morning when the wrestlers weigh-in, he added.

A damage suit for \$17,500 has been filed in Madison county circuit court for John Brown, a minor, by his father, Charles F. Brown, against Arthur L. Theis and Joseph A. Michel of Granite City.

Adult Classes Open in SIU-SW Electronic Language Lab

Programmed instruction in French and Spanish in a newly installed electronic language laboratory on Southern Illinois University-Southwestern Campus is now being offered adult residents of the area, as well as faculty and staff members and their families.

The laboratory, operated for the university by English Language Services, Inc., of Washington, D. C., teaches entirely by mechanical means, utilizing a method which is said to approximate most nearly the way in which a child learns his native language.

Each language has been broken down into basic sounds which have been recorded on tape by native speakers and keyed to a workbook. The student first hears each sound in isolation, then in combinations until they form words and ideas. By repeated association of ideas, the method eliminates the need for memorizing grammatical principles.

The laboratory enables each student to study independently of all others and to progress at his own rate of speed. There are no rigid schedules, as is the case with conventional instruction, and students may study at their convenience as little or as much as they wish between the hours of 9 a.m. and 8:30 p.m. weekdays and between 8 a.m. and noon on Saturdays.

Based on past experience on ELS installations, the course takes from three months to 12 months to complete, depending on the amount of time the student spends each week in the laboratory.

Area residents interested in enrolling for either French or Spanish or in learning more about the courses may write Perry Akins, Language Laboratory, Room 1404, Peck Classroom Building, Southern Illinois University, Edwardsville, or telephone Area 618, 692-2485.

County EOC Hires 30 Quad-Cityans For Field Work

Madison County Economic Opportunity Commission has named 30 part-time field workers to inform elderly persons of their Medicare rights and assist them in applying for coverage. These hired, including seven Granite Cityans and five Madison and Venice residents, will receive instructions on the program from Social Security representatives at 10 a.m. tomorrow at the Velje city hall.

"Operation Medicare Alert," a joint effort by the Madison and St. Clair counties Economic Opportunity Commissions and the Social Security Administration, will officially get under way immediately following tomorrow's meeting. An estimated 6200 elderly persons, some in isolated circumstances, will be contacted before the program is completed on March 31.

Persons eligible for the \$34-month doctor bill portion of Medicare must sign up before that date, or wait until late next year. The March deadline does not include the hospitalization benefits of the Medicare Act.

Approval of a \$21,225 grant in federal funds was announced last week, clearing the way for the initial anti-poverty project in Madison county. The two-county committee had requested a \$28,000 grant.

Due to the reduction in funds, the original number of survey takers intended to be hired in the two counties was reduced from 65 to 35 or 40, with Madison county allotted 15 full-time workers.

At a meeting of the Madison commissioners in Edwardsville Thursday, it was decided to hire 30 part-time employees, instead of the full-time quota. Those named are over the age of 35 and will receive a \$175 hourly wage.

In other action Thursday evening, the commission hired Archie Delmar of Granite City as one of five captains to supervise the survey in the two counties and Mrs. Alice Dougherty of Edwardsville as an office clerk. Earlier, the joint committee appointed William P. Hale of O'Fallon to direct the overall Medicare project.

Those to conduct the survey in Granite City are Mrs. Tina Neunreiter, James Davis, Mrs. Ellen Christy, Mrs. Sophie Packer, Mrs. C. L. Luckert and Charles Mott. Madison and Venice area field workers are Rev. James Jenkins, Mrs. Betty Berry, Jesse Johnson, Joseph Walker and Walter Newsum.

It was announced at the meeting, the regional office of Economic Opportunity in Chicago, is continuing to review the Madison EOC's application for nearly \$70,000 in federal funds to start general anti-poverty project surveys on a county-wide basis.

Started in 1946

The Hope Lutheran congregation was started as a branch Sunday school of Concordia Lutheran Church in the Nameki village hall Oct. 6, 1946, under the direction of Rev. A. O. Gebauer.

In May 1949, Rev. Schmidt became the first pastor, and in the summer of that year plans were started for erection of the first unit, used until now for worship and educational purposes. In 1962, a new parsonage was purchased and the old parsonage was used for expanded Sunday school facilities.

Ground was broken for the new building Feb. 28, 1965, and the cornerstone was set on July 18.

\$295,000 Project

Total cost of the project is \$295,000.

It provides a sanctuary seating 350 worshippers; a basement with provisions for 12 Sunday school rooms so designed that it may also be used as a large assembly room; and a nursery and kindergarten section.

Next to the sanctuary is an office wing containing a secretary's office, a workroom, the pastor's

office and a conference room as well as a ladies' lounge and restrooms.

The parking lot adjacent to the building is blacktop. The balcony holds the new eight-rank organ and facilities for the choir. G. H. Sternberg & Co. of Granite City was the general contractor and William G. Potter, A.I.A., of Belleville was the architect.

A pair of flashing red lights on the roof will replace conventional center-mounted lights now in use on 600 Illinois state police cars in 1966.

Higher speeds on expressways and highways necessitate the change. The lights are synchronized to produce a wig-wag alternating flashing effect, similar to railroad crossing signals. A horizontal bar on which the lights will be mounted will also be used to carry the speaker for the mobile public address system and electronic siren.

Income Tax can be Filed without W-2

Many Illinois taxpayers may have to file their 1965 Federal income tax return without having received from their employer a wage and tax statement, Form W-2.

Some advice to these taxpayers was offered today by Jay G. Philpott, district director of Internal Revenue for central and southern Illinois. He suggests:

"Try to get a Form W-2 from your employer. If the employer has gone out of business, contact him or the present owner of the business, and request your Form W-2."

"If you do not succeed, prepare your 1965 income tax return from the best information available, and file it before the April 15 deadline. Attach a note to your return explaining why the Form W-2 is missing."

Musso Announces Officially He will Seek Nomination

Madison county Treasurer George Musso, veteran law enforcement official, announced officially today his candidacy for the Democratic nomination for sheriff.

Under Illinois law, neither a county treasurer nor sheriff can succeed himself. Musso has served as treasurer since 1962, and his term will expire in December.

Musso said he would wage an active and clean campaign, and he has received the endorsement of the executive committee of Madison county Democratic Organization.

Musso served as sheriff from 1959 to 1962. He has served 18 years in the sheriff's office as a night and day deputy sheriff. In addition, he served as a state parole officer under the late Gov. Adlai E. Stevenson.

Musso is well acquainted with many officers in the law enforcement field and has worked for many years with law enforcement agencies. He has served as president of the Illinois Sheriff's Association and presently is on the group's executive board. He also headed the Madison County Police Association in 1957-58.

Born in Collinsville in 1910, he attended public schools there, where he lettered in four sports, winning a full scholarship to Millikin University where he graduated with a Bachelor of Science degree.

His college football prowess won him a place on the Chicago Bears football squad as a regular lineman for 12 years, serving as captain for a number of those years. He was named to the Helms Athletic Hall of Fame at Los Angeles.

Musso was in a serious automobile accident in 1962. Medical doctors were amazed at his virtually complete recovery and credited his excellent physical condition for it.

Musso now makes his home in Edwardsville with his wife, Pauline. They have three daughters and three granddaughters. Musso has been a lifelong Democrat and has been active in party affairs for many years.

Retailers Seek Lower Curbs To End Auto Door Hangups

Under consideration by Granite City council members is a seven-page listing of recommended replacement of sidewalks, filler strips and curbing in the downtown business district.

The listing was prepared by the Downtown Granite City Shopping Center Association following a survey of the area bounded by 18th street, Madison avenue, Niedringhaus avenue and Cleveland blvd.

Types of recommendation are for the removal of an unneeded curb, replacement of broken sidewalks and curbs and for a continuation of a program started last year by the city street department in paving filler strips between sidewalks and curbs.

In the 22 areas of recommendation, the association lists 72 individual projects.

The listing is presently under study by the council's street committee to determine cost and the extent to which the city will be able to carry out the work.

Citizens Aided Widening Project

To the Editor:

At a time when public apathy to complete, I am proud to belong to a community where the citizens react to wrongs by collective community action.

This interest was highlighted recently when our citizenry took positive action to correct the Nameoki road problem.

As you know, this road needed widening and improving for many years. Our mayor and city officials provided the leadership to correct this condition, but they could not be expected to do it alone.

As a result, private citizens joined in the effort by writing letters to the governor and other state officials and telephoning our state representatives. Still others worked for this cause by signing petitions and writing to the Granite City Jaycees.

Even when setbacks arose, as they invariably do, the people were discouraged but continued their drive.

A second effort was made and, as a result, the funds have been provided for this project. The work will begin soon.

Because of this accomplishment, our city will be a better place to live.

Going 'Forward' to Feudalism

(Wall Street Journal)

Aware of the pitfalls in historical analogy, we nonetheless submit that the apparently prevailing mentality in this country today can no longer be called modern or forward-looking but is growing positively medieval.

Here, for a particularly lurid example, is a high-powered commission on technology, set up by Congress and headed by prominent names like Thomas J. Watson Jr. and Walter P. Reuther. It recommends that the Government provide a basic income account for every family in the United States.

It further recommends that the Government become an "employer of last resort" for people who can't find jobs elsewhere.

These, of course, are only a couple of the innumerable manifestations of a welterian ruin rampant, a welterian divorced from the humanitarian principle that a community must care for its genuinely needy. It is not humanitarian at all; it is a welfareism driven by personal responsibility and seeks to transfer it to the hands of the few men holding national power. It is growing the range of individual decisions and obligations.

With a remarkably similar viewpoint, medieval society required the lord of the manor to provide for his serfs. Their lives were watched, their lives were bound to the manor for life, but you can't deny they had such guaranteed security as feudal times could provide.

Obviously there was no path to progress, economic or otherwise. Quite the contrary. It was after the serfs began escaping to work as free men in the cities that a firm base of the built for the use of the merchant class and the eventual flowering of free-enterprise economics. By no coincidence, the serfs to freedoms were deeply entwined with the development of economic liberty.

Well, we won't stretch the analogy, except to note a pair of points.

A future society, no matter how advanced technologically, which is first coddled and then controlled by governmental authority, is going to be a highly disagreeable one in which to live.

And a people thus softened is unlikely to retain its energy, property and place in the world. Nor do we pretend to be able to desert the precise outlines of the new feudalism, if that is where America is headed. Plenty of signs already suggest a 1984 type of demoralized despotism, notably the spread of peeping-tomism in Government and industry, and the increasing of intrusions into the individual's personal life.

But it needn't be a completely brutal tyranny.

One of Tocqueville's profound insights about what might happen to democracy was that a "soft tyranny": A supreme authority that actually was kindly disposed, wanting to take care of the people and, of necessity, regulate their every move.

The only trouble is that the people would be treated like, and behave like sheep.

Whether or not such is the America our grandfathers intended, and the rest want, they certainly seem to be trying to bring it on.

They have made a drastic and useless attempt to get out from under the smothering baby-blanket of Governmental soliloquy.

In their surging sentimentalism, they forget how easily liberty can be lost in excessive dependence on government.

Only a few years ago the current welfareist thinking would have been deemed unacceptable by the American people.

Today there seems little in the way of an effective counterforce; it's as though many people had been given up and decided to let the large plants where security is called for are required to wear badges with their picture on it. What security is needed is only to check the person against his picture in order to admit him.

Identifying a Christian from non-Christian is not quite so simple, it would appear from all the confusion that exists. Our perception needs to be sharpened by what the Gospel has to say on the matter if we are to be able to positively identify a disciple of the Lord.

Cannot Be Both

The present state of confusion is illustrated by the often-heard term of "worldly Christian" used to describe some so-called Christians. Actually, there is no such thing. One is either "worldly" or both at the same time.

The Gospel of John leaves no doubt in the mind of anyone who will study it as to what are the identifying characteristics of a Christian. He is stationed in a Christian, a disciple of Jesus, Washington, D.C.

Decide On Expense Allowance Without Clouding Other Issues

The assessor expense allowance is an example of an issue that Granite City aldermen should be able to deal with on merits or lack of merits, without questioning the sincerity of those voicing different viewpoints. It must not be allowed to become a wedge that increases factionalism; such "choosing of sides" could prevent other far more important matters from being decided on merit, and if this happens it will jeopardize the municipality's ability to achieve future progress.

There is little doubt that the \$7600 assessor salary (a new state law permits a \$10,000 level for townships of this size) was a part of some aldermen's thinking in the 10-5 vote Dec. 6 boosting the allowance from \$600 to \$2,400.

The assessor took office Jan. 1, and a legal interpretation indicated that the pay itself could not be altered after Dec. 1. Such a step could in effect raise an official's pay during a term of office, which is contrary to the law, but only if the allowance was used improperly. Non-existent expenses have been implied in the debate but not substantiated.

Elected at the annual town meeting last April voted to pay \$1320 more than the salary listed in the tentative budget. Although it was later willing to boost the allowance by \$1800, the council saw fit not to ratify this \$1320 salary change, and it is not being paid. Perhaps recollection of the electors' wishes played some part in the December decision now being challenged.

Our views on expense allowances have been given in the past. Allowance payment requests should be itemized and only those expenses actually incurred should be reimbursed. This policy should be followed in the case of Assessor Barton.

At the same time, the council could hardly defend applying stricter standards of accountability against an official than against other city officials or itself. If it is going to fulfill its responsibility to check every penny spent by the assessor, the council will need to do the same for every alderman. That is just what it should do.

A Hint Of The Exciting Future

Announcement that another 100-bed addition to St. Elizabeth Hospital is under long-range study for the future, and that life in the Quad-Cities is going to involve many new and exciting developments during the coming years.

Change is inevitable regardless of the time or place, and the community is not too far ahead in falling behind. But we suspect that the 1960s and 1970s are going to bring more than moderate change as the Quad-Cities expand various services and facilities in step with population gains.

They may be hectic on occasion, but the next decade or two seem certain to be eventful in rewarding to those who make their home in the Quad-Cities.

Will The Bids Be Low Enough?

Bids have been requested for March 4 on widening Nameoki road and March 15 on the joint city-county Maryville road improvement.

Importance of both projects to this community is well known, and the bid calls were achieved only after much advance planning and effort.

If the bids are low enough to permit acceptance, Quad-Cityans will soon be well "on the road" to less congested travel. We hope contractors of this area make sure there is intense competition to do the work.

Guns, Butter And Students' Milk

"Guns or butter" is a much used phrase of the mid-1960s. Although criticized as an oversimplification, it provides a concise way of describing the choice between military and civilian spending by the federal government.

Now that the Viet Nam fighting seems likely to curb Uncle Sam's school milk and lunch programs for public and parochial schools, perhaps the saying ought to be changed to "guns or milk."

How that the Viet Nam fighting seems likely to curb Uncle Sam's school milk and lunch programs for public and parochial schools, perhaps the saying ought to be changed to "guns or milk."

Changing an Ideal Into Reality

By Rev. James R. Craddock

Is one who in all his actions and attitudes exemplifies love.

Central Christian Church

"A new commandment I give to you, that you love one another; even as I have loved you, that you also love one another. By this all men will know that you are my disciples, if you love one another."

Huge Transformation

If all who claim to be disciples of Christ were suddenly to begin bringing their actions into line with the Christian ideal of love, a transformation of unbelievable proportions would take place in our society.

The force of love would be felt in international affairs, and world peace would become a reality.

The forgotten in every nation would be helped with food, medicine, education and numerous other needs. We would witness a changed climate where differences between labor and management could be resolved peacefully and equitably.

Do you consider yourself a Christian? How do you fit the description Jesus gives? Are you showing forth love to all about you—your family, your business associates, the man on the street and the car next to yours?

It is tremendously important what others see in us. Moreover, we are answerable to God, before whom all must appear to be judged for the actions committed in this life.

Whither America?

Federal Debt is Still Dangerous

Despite the sophisticated arguments that have been advanced in an attempt to explain it away, one of the most nagging causes for concern over the future of our country is the debt we keep growing deeper into debt.

As of now, the national debt stands at roughly \$318 billion—of which interest on it adds up to \$10 billion a year.

Just 25 years ago the entire Federal budget was less than \$10 billion.

Just paying the upkeep on old debt takes one of each 10 tax dollars. It equals all the income taxes paid by the 41 million Americans who report earnings up to \$6000.

Since figures so large are hard to grasp, look at it this way: If a man started in 1939 at the age of 10, working 12 hours a day 365 days a year, he wouldn't have run through \$10 billion yet. Or, if you had a billion dollars in \$10 bills, you would have a stack almost 5.7 miles high.

Yet there are those who insist that our towering national debt is nothing to worry about.

To the extent that they say the national debt isn't like a personal debt, they're quite right. A family must plan its financial affairs on the basis of its limited lifetime; the government continues to pay interest on its debt, so much money and no more; the government can always obtain more money through additional taxes.

Those who insist that the national debt is no concern because, as a nation, "we owe it to ourselves," also maintain that:

1. Although the national debt has increased in absolute terms, it has declined in relation to the gross national product.

2. Federal deficits are necessary to combat unemployment.

Since the gross national product includes government spending, which constitutes about a fifth of the GNP, how meaningful is it to view the national debt as a proportion of the GNP? By that kind of a yardstick, the more the government spent and the deeper it got into debt, the more it would be to get out of debt. That, of course, doesn't make sense.

As to combating unemployment, why must we assume that unless the government spends our money for us, it will remain unemployed?

Or is it that the government which takes our money knows better than the people who earn it what goods and services they need?

In 29 of the past 35 years, Federal expenditures have exceeded revenues. If the federal deficit is really a good means for combating unemployment, shouldn't we have saved such ammunition for depression instead of employing it through periods of record prosperity?

During inflationary periods, Federal deficits aggravate the inflation by putting more excess money into circulation. Even under more favorable conditions, a large government debt invites inflation.

"If the value of money falls," economists note, "the real rate of the debt falls; less labor and physical output are needed to get the dollars required to pay the interest. Consequently, hard-pressed government for depression policies which make money worthless."

Moreover, the absence of the pressure of making expenditures conform to government tax receipts fosters waste and inefficiency.

Politically, it has been more difficult to lower taxes and increase spending than to do the opposite. Unless we get tough with ourselves and put our fiscal house in order, our children will be bankrupt by the mistakes we make today.

Special Teacher Training at SIU

A program to train teachers of emotionally disturbed children is planned for Southern Illinois University's department of special education at Carbondale.

James M. Crowder, who began this month as department chairman, said both undergraduate and graduate programs are planned.

"We will apply for a grant for program development during the 1966-67 school year but will begin our work right away," he said. Crowder, whose area of specialization is the emotionally disturbed child, arrived at Carbondale from the University of Arizona. Previously he had set up a similar program at Michigan State University.

With legislation enacted in Illinois which makes special education programs optional in communities where needed, Crowder sees a big demand for teacher specialists.

"From two to five per cent of the school age population in the United States is so severely emotionally disturbed it cannot profit from a normal education," Crowder said. "These children come from all walks of life. Some of the saddest cases are those where the parents are doing a fine job, but have a child with a neurobiological personality, and nobody knows the reason why."

Francis Cluffs, 83, Dies In Carbondale

Francis P. Cluffs, 83, of Carbondale, Ill., a former local resident, died about 10 a.m. today at the St. Vincent Nursing Home, Carbondale, where he had been a patient for several weeks. He had been in ill-health for six years.

Born in Grand Tower, Ill., Mr. Cluffs had moved to the Carbondale area about six months ago. Previously, he had lived here almost 50 years. Before retiring, he had been employed as a bookkeeper. His wife, Nettie, died in 1956.

He is survived by three daughters, Mrs. Ethel Roach, Carbondale; Mrs. J. D. (Nora) Garver, Carbondale; and Mrs. Sylvia Verity, Elvira, O.; six sons, Dale, Earl and Clifford Cluffs, Carbondale; Mr. and Mrs. C. S. Marlene Corp and Robert Cluffs, Texas; two sisters, Mrs. Nora DeKossett, Grand Tower, and Mrs. Mary Ann Cluffs, St. Louis; and two brothers, George Cluffs, Carbondale; and Roy Cluffs, Murburno, Ill.

Funeral arrangements are given in today's obituary column.

Scout Leader Training

Plans for leader training beginning March 8 and for creation of new scouting units were discussed during a monthly Unihavah Valley Scout district meeting conducted by Chairman E. R. Applegate Thursday night at Illinois State University. The district committee also discussed a sustaining member drive to be launched this year, and the 1966 appreciation dinner April 16.

Man Exposes Person

Police received a report that an unknown person in a light green sedan exposed his person to three young boys in a 1960 block of Primrose avenue at 4 p.m. Friday and then drove east on Pontiac road. He was described as being thin, weighing about 135 pounds, with black hair and a crew cut.

In Memoriam 33

In loving memory of MARCEL LA BUNNELL, Feb. 14, 1900: Just a line of sweet remembrance. Just a memory, fond and true. Just a token of love's devotion That my heart still longs for you. The years of her life were numbered. When the messenger whispered low, "The Master has come and called for thee." She answered: "I am ready to go." Sadly missed by the FAMILY. In memory of my mother, NETTIE D. KAISER, on her birthday. DAUGHTER, JACQUELINE COOPER AND FAMILY. 33-214
